**IMPIEGO** Rett. Fin.8 - 7 a 1 capo

**ETICETTATURA DI MANUTENZIONE**

Tutti i colori dei nostri filai di cotone, cotone-viscosa e lino-cotone sono tinti con coloranti reattivi che garantiscono ottime solidità alla luce, al lavaggio con normali saponi neutri e al sudore, nonché ottima unitezza. Si raccomanda di non mettere in candeggina e di non usare per costumi da bagno (no cloro piscine).

Si consiglia di lavare a secco i capi rigati.

Nei colori CHIARO e NATURALE eventuali differenze di tono sono dovute al colore base del lino greggio.
